

*Kathie*

You are 16 years old and you go to the local high school. You consider yourself a special girl with a passion for art. You have about a million interests and you jump from one to another. You don't usually go follow through and what's interesting now may be boring for you just a minute later. So you have a lot of unfinished paintings, a guitar, a piano... and this all lies untouched because you devote your time to yoga and feng-shuei. Despite all that, whatever you're doing at the moment, you put your whole heart into it. You only have a few real friends; the others are just the gray masses floating around you. You take pride in being different, but you've never been an outsider. Sometimes you are emotional and take things too personally, but you act cool in front of the others nevertheless. If you're sad, you want to be alone.

*First interlude*

You are standing in front of each other. You and Eve. You don't have any idea how you got here or what this place is. You only remember a few of the last days. Everything else is covered a blur.

However, you feel calm. You're not afraid. Rather, you're glad to be with her.

*"How did you end up here?" This is the question which ends the scene. Don't answer it.*

## *Episode 1: Kathie*

### **Scene 1: The Birthday Party**

You celebrate your 16<sup>th</sup> birthday with your friends in a garden by your house. Your friends from school, Peter, Alice and even Andrew, your secret love, are here. Your mom is preparing the dessert and you are having a great time. The only thing missing is Eve, your sister. You've been together since childhood and that's why you miss her so much. You try not to think about it too much though. You don't want to spoil everybody else's fun.

### **Scene 2: The First Date**

You and Andrew are having your first date. You've loved him secretly for some time now and he finally asked you out. Andrew is really nice, he's funny and he's got style. Both of you are nervous, but you won't let anything ruin this beautiful evening. The only thing is, you can't stop thinking about Eve. Yesterday, she didn't show again. You haven't seen her for such a long time. You are sitting in a sweetshop and it is pretty crowded here.

### **Scene 3: Lunch break**

It's Friday, just before noon, and you have a Lunch break in school. You are discussing your evening plans. Everybody wants to go to the dance club. You would go too, but your sister is coming home tomorrow and you don't want to miss a minute with her. You have to be fresh in the morning so you can enjoy her visit.

### **Scene 4: With Alice**

You are sitting in your room with your best friend Alice. Lately, you've begun to feel strange; you even started having some problems at school. But that doesn't matter all that much. You feel that people don't understand you anymore, especially your mother. Your friends ignored you the last time you went out and you don't even know what you would talk about. Is there something wrong about you? If only Eve was here, she would understand.

### **Scene 5: Back at home**

You and your mother visited a doctor today. You came home and your mother looks awful. She's crying. She didn't tell you anything, but you figured it out. You see it in her eyes. Eve has got to be sick. But you won't press her for the details. The only thing that matters right now is to support your mother. You have to be strong for both of you.
