

**The Believer's Book** *(owned by Joseph)*

*"Every situation in your life has appeared earlier in the vision of the Universe."*

Take a moment to think about your destiny. Sometimes you need to act decisively and to take any wrong just to ensure that your beloved ones would not have to withstand injustice. The good the Believer does will come back to him immediately. Even a small piece of good can be enough.

\*\*\*

Hidden secrets will appear, sooner or later. That is why it is better to take a step forward and decide about the revelation yourself. Choose the time. Better than if the Believer were surprised and taken aback. The Believer himself chooses the place of his humiliation so that he would suffer now and be blissful in infinity.

\*\*\*

To an infidel, a man seems to be the measure of all things and, therefore, he judges according to an individual. The Believer, however, understands that respect is not only about fear and having individuals as role models but about mutual tolerance and recognition. Listen and think. That is the way of the Believer.

\*\*\*

Act as you would like others to act. Then all Believers will be role models for each other and truth will spread among the infinity.

\*\*\*

In the course of your life, you, a lost pilgrim, will seek the right ways. Then pay heed to what your heart is saying and you will prosper. Your step will be firm. And remember also that we never know what paths we will cross and when.

\*\*\*

About guidance and decisions. Only children will follow what others say as they do not have a will on their own. A fool does not listen and do. A fool will not listen to advice and make a decision on his own. A wise man will hear out the advice, consider and then decide.

\*\*\*

Longing for love, pilgrim? Then know that to love means to love weak and needy. If you do not open your heart for those in need, you will never know love yourself.

\*\*\*

Not following a route is a route in itself. The longest and crookedest of all. Do not fear to take a wrong route, the direction can be changed! However, if you do not take a route, your journey to your final destination will be very long, should you ever reach it.

\*\*\*

Are you judging others for hurting other people? Then know that sometimes the paths of the Lord are not set in a way that can benefit everybody. Sometimes you have to make an ungood decision just to prevent worse things from happening.
